

1. Log in to WordPress admin dashboard.

Go to Plugins → Add Plugin

2. Active installed Plugin

3. Control activated Plugin

The screenshot shows the WordPress 'Add Plugins' interface. The left sidebar contains a list of site management tools: Dashboard, Astra, WP Activity Log, Posts, MetForm, Media (1), Pages, Comments (1), Federated Search, Elementor, Templates, Royal Addons, ElementsKit, UAE, Appearance, and Magical Addons. The main content area is titled 'Add Plugins' and features a search bar with the term 'security'. Below the search bar, there are four plugin cards displayed in a grid. A red arrow points from the text 'Control activated Plugin' to the 'Wordfence Security' plugin card.

Wordfence Security – Firewall, Malware Scan, and Login Security
Firewall, Malware Scanner, Two Factor Auth, and Comprehensive Security Features, powered by our 24-hour team. Make security a priority with Wordfence.
